T1: Complete OROAD-0

Important

T1 is where we put some meat on the bone by pursuing [OROAD-0](#)

- **Starts:** T1 + 0 months
- **Depends on:** ∅
- **Ends:** T1 + 9 Months
- **Contents:**
 - [T1.1](#): Complete OROAD-0
 - [T1.2](#): Ensure Ramate LLC is legally prepared to employ or contract contributors
 - [T1.3](#): Identify IP strategy and prepare licensing
 - [T1.4](#): Experiment with some less intensive ventures

T1 seeks the completion of [OROAD-0](#). [OROAD-0](#) contains provisions for technology, staff, and funding.

As noted in [RPRE-0](#), we are making a bet on [OAC](#). T1 is the roadmap which initially guides this bet.

This period will be primarily characterized by [Liam Monninger](#) working alone but slowly generating interest in Ramate's projects amongst peers as well as trying out collaborations.

Markdown render deferred to the surrounding environment in pop-up window.
